

ANDREWS HOOPER PAVLIK PLC

AHP offers clients the option of using our online portal as a safe and convenient way to transfer financial documents.

What is AHP's portal?

AHP's portal allows clients to safely and efficiently share and receive documents via AHP's website.

What are the benefits using the AHP portal?

- Accessible 24 hours a day
- Immediate access to your documents
- Reduces your paper consumption
- Saves money on postage costs

How do you set up a portal account?

Setting up a portal account is easy and, once completed, it can be used immediately.

1. Request a link via email to activate your portal
2. Login in to your portal by visiting www.ahpplc.com
3. Easily view and upload documents securely

Testimonials from Portal Users

"Using the portal has been beneficial not only in uploading my information for AHP, but also in receiving information. I use it for both my business and personal communications with AHP. It's a secure way to upload files that may be too large and sensitive to send via email. I feel confident when I place the information on the portal that it reaches only its intended recipient. Since I receive my returns electronically, I can print them only when needed and therefore it is an easy way to be 'green'."

President of a privately-owned company

"I've found the portal to be very useful as a quick and secure way to send tax data to AHP and to receive my tax documents that I can then store electronically. And electronic (digital) storage is a great space saver compared to the paper forms."

1040 personal tax client
