

Not-for-Profit

Andrews Hooper Pavlik PLC (AHP) provides a broad range of services for your not-for-profit association, charity, faith-based organization, health care entity including hospitals, human and community service organization, labor organization, educational institution, or governmental entity. Although your management processes, accounting systems, and operational methods may be similar to those of the private sector, your exemption from income taxes and fiduciary responsibilities to members, contributors, and other constituents, as well as your reporting requirements to supervising governmental entities, introduce the need for highly trained professional assistance.

Because your financial reports and processes should be designed to respond to these unique differences, our professionals work closely with you and your management team to meet your needs and exceed your expectations.

Uniform Guidance Audits

If your organization receives more than \$750,000 in federal funds, you may require a “single audit” performed in accordance with the Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. These funds can be received directly from a federal agency or as a pass-through grant from a state or local entity. AHP has extensive experience performing these types of audits, as well as grant-specific audits.
